

Output

Name: Kushal Prasad Joshi
Roll No: 230345
Date: 4th May 2026
Experiment: How to configure Routers and Switches from their CLI?

Theoretical IP Range of IPV4: 0.0.0.0 to 255.255.255.255

NOTE:

1. First address of ip range is always network address.
2. Last address of ip range is always broadcast address.
